*For VIP Guests*

## World Class Capability

The Consular Chamber of Commerce Office of The Legal Attaché offers on-site document legalization services of nearly every country in the world.

Our notary and paralegal liaisons are on call at the service of your guests, and can usually be on site within minutes.

## Unmatched Privacy and Security

Unlike other document specialists, all liaisons are retained by the Legal Attaché, and their work is attorney product, protected by attorney-client privilege.

Additionally, liaisons of the Legal Attaché may act in the capacity of emissary, with direct orders of a consul and as a member of a consulate according to the Vienna Conventions on Consular Relations. Documents in possession of the liaison are thus protected by the Vienna Conventions from search and seizure. This includes documents transported by the liaison to the consulate for further delivery outside the Country.

- Shareholder negotiations
- Legal proceedings
- Contract signings and delivery
- Large ticket sales

## Extraordinary Legal Representation

The Legal Attachés are attorneys selected by the Consular Chamber of Commerce for extraordinary ability, experience, and connections in their local community.

All professionals involved understand the need, and agree to take extraordinary measures to protect and preserve privacy and reputation of clientele.

## Reputation Protection

Whether a minor traffic violation, DUI, or on the rarer occasion of more serious allegations, the Legal Attaché takes great care to keep clients from having to show face in court whenever possible, and keep attention away from embarrassing court proceedings.
